Dear Timothy -

Blessed news of imminent parole.  
All our prayers + powers are focused  
upon you all the time.

So glad Joanna found the beautiful  
house. You'll love it - redwood trees  
& San Francisco like a bright  
decadent jewel through the branches.

Joanna/Dennis + I spent the other  
day dulling the archives. They  
took the 70s, leaving me with 60s  
& all those trapped nervous systems.  
They're so circuit b it's impossible  
to argue! (I argued anyway  
from archival imprints.)

Can't wait to see the new ms.  
I've been into Periodic Table of  
Elements this year, and other  
atomic ~~stuff~~ literature, to help  
understand circuit & relationships.

Great good luck & interstellar  
Success to you & Joanna.

Love all ways,

Michael

A visitable meteor  
shows of seams!

No confirming letter from  
you yet.

Can you enlighten  
this archivist?
